Vision of the Institution:

उत्तमपुरुषान् उत्तमाभियंतृन् निर्मातुं कटिबद्धाः वयम् ।

We are committed to produce not only good engineers but good human beings, also.

1. Mission:

Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbining an unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity and technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant Society.

2. Quality Policy:

Quality Policy aims to establish centre of excellence for technical education and research in Engineering & Technology by way of;

- Inducting faculty having sound knowledge in the field of Science and Engineering and to make special efforts to retain them.
- Proven good results and admitting quality students.
- Developing human capital by supporting talent, ideas and energies of outstanding individuals.
- Promoting partnerships with the quality institutes like IITs', IISc, etc. , research organizations like ARAI, NCL, C-DAC, etc. & prominent corporate houses.

Developing excellent teaching learning process by establishing cohesive bond between students & faculty and healthy atmosphere with decent discipline.

3. Goals:

• Long Term Goals

1. To establish Research Centre as Centre of Excellence in Engineering Research and Development
2. To seek Academic Autonomy leading to University status
3. To develop an Engineering Knowledge Centre of Society in general
4. To develop the institute in focused areas like Information Technology, Biotechnology, Energy, Materials etc.

• Short Term Goals

1. To add new Post Graduate and Ph.D. programs
2. To motivate and deputefaculty for Doctoral Programs
3. To improve the interaction with institutes of national and international repute and industries from various fields of engineering

4. Students Intake:

Department of Biotechnology

Annual Academic Audit Report

2020-21

VISION

To develop proficient, skilled biotech engineers with knowledge of biology and foster Research, innovation and Entrepreneurship.

MISSION

- To impart high quality graduate programme to develop proficient Biotech Engineers with excellent theoretical and practical skills
- To foster Research, Innovation and Entrepreneurship
- To create/provide/develop competent/skilled Biotech engineers of good caliber with high ethics, noble ideas and values

QUALITY POLICY

We the faculty, committed to provide quality education to the students enabling them to excel in the fields of Science and Engineering to gratify the changing and challenging needs of the society and industry.

Long Term Goals

- To develop world class center of excellence for Biotechnology engineering
- To carry out biotechnology research of highest quality through global cooperation and to develop knowledge-rich highly skilled human resource.

16. Short Term Goals

- To Start M.Tech Biotechnology programme and research center for PhD students.
- To keep pace with technology and process through industrial training of faculty, staff and students.
- To fetch grants from funding agencies.
- To motivate the faculty for qualification up-gradation
- To increase number of placement in biotech industries.

Industry Liaison

Department has close liaison with biotech industries which can be strengthened with the help of Industry-Institute Interaction Cell (I²IC) and Industrial Visits.

➤ Industry-Institute Interaction Cell

Objectives of Industry Institute Interaction Cell:

- To arrange Guest lecturers in various domain of interest
- To work as External examiner for U.G. Project work
- To provide Internship to desired students
- To work as a Technical adviser in students projects.
- To help in syllabus revision based on industry need.

Annual Academic Audit Report
Department of Chemical Engineering
2020-21

- **Vision:**

To be a recognized undergraduate chemical engineering programme and a center of excellence that nurtures innovations in chemical engineering education and research.

- **Mission:**

Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbibing an unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity and technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant Society.

- **Quality Policy:**

Quality Policy aims to establish centre of excellence for technical education and research in Engineering & Technology by way of;

- Inducting faculty having sound knowledge in the field of Science and Engineering and to make special efforts to retain them.
- Proven good results and admitting quality students.
- Developing human capital by supporting talent, ideas and energies of outstanding individuals.
- Promoting partnerships with the quality institutes like IITs', IISc, etc. , research organizations like ARAI, NCL, C-DAC, etc. & prominent corporate houses.

Developing excellent teaching learning process by establishing cohesive bond between students & faculty and healthy atmosphere with decent discipline.

- **Goals:**

- **Long Term Goals**

1. To set up centre of excellence in the frontiers of Chemical Engineering
2. To imbibe technical skills needed for achieving Professional Excellence
3. To serve the society through significant contribution to industry, nation and the engineering profession
4. To inculcate social and ethical values among students

- **Short Term Goals**

1. To improve industry-institute interaction
2. To imbibe technical skills needed for Consultancy and Entrepreneurship in the field
3. To provide conducive environment for research and development and faculty qualification upgradation
4. To publish quality research papers in journals of repute

1. Mission

Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbibing a unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity and technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant Society.

2. Quality Policy

Quality Policy aims to establish centre of excellence for technical education and research in Engineering & Technology by way of;

- Inducting faculty having sound knowledge in the field of Science and Engineering and to make special efforts to retain them.
- Proven good results and admitting quality students.
- Developing human capital by supporting talent, ideas and energies of outstanding individuals.
- Promoting partnerships with the quality institutes like IITs', IISc, etc. , research organizations like ARAI, NCL, C-DAC, etc. & prominent corporate houses.

Developing excellent teaching learning process by establishing cohesive bond between students & faculty and healthy atmosphere with decent discipline.

3. Goals

● Long Term Goals

1. To establish Research Centre as Centre of Excellence in Engineering Research and Development
2. To seek Academic Autonomy leading to University status
3. To develop an Engineering Knowledge Centre of Society in general
4. To develop the institute in focused areas like Information Technology, Biotechnology, Energy, Materials etc.

● Short Term Goals

1. To add new Post Graduate and Ph.D. programs
2. To motivate and depute faculty for Doctoral Programs
3. To improve the interaction with institutes of national and international repute and industries from various fields of engineering

VISION

To be among the noble contributors towards society by achieving excellence in academics and research, and inculcating human values within every individual.

1. MISSION

To create ample opportunities and ambience, in which individual's prowess can be enhanced to achieve peak of success.

2. QUALITY POLICY

We the faculty, staff and students are committed and dedicated to ensure state of art quality in engineering education through the mold of ethics, social responsibilities, eco-system awareness and nationalistic proud.

3. GOALS

• Long Term Goals

- To elicit competent leaders by facilitating an environment to discover, and unleash the technical potential dwelling within an individual.
- To develop state-of-the-art research center, to induce thirst of knowledge and research in every student and professional.
- To achieve academic excellence and offer valued services by strengthening institute –industry collaborations.
- To sow the spirit of entrepreneurship in the disciples.
- To insists for the realization of an accountability of a civilized

• Short Term Goals

- To commence research center and doctoral program.
- To buildup strong interaction with industry for collaborative efforts, projects and newest technology based training.
- To intensify technical exposure to students by means of professional courses, certifications and various activities.

Vision:

Department of Electronics & Telecommunication Engineering shall continue to innovate and practice the processes to propel development in engineering education, keeping excellence in focus and render services to match the needs of technical education system, industry and society.

1. Mission:

To create an ambience and provide broad based education where students are urged to develop new ideas and professional skills in equilibrium with the needs of the nation.

2. Quality Policy:

We the faculty, staff and students are committed and dedicated to ensure state of art quality in engineering education through the mold of ethics, social responsibilities, eco-system awareness and nationalistic proud.

3. Goals:

- **Long Term Goals**

1. To set up Centre of Excellence in the field of VLSI Embedded and Signal Processing
2. To keep pace with technology and process through industrial training of faculty, staff and students
3. To establish close association with state of art Universities, Industries and Personalities
4. To inculcate quality, social, ethical and eco-friendly awareness among the students

- **Short Term Goals**

1. To intensify industrial training to faculty and staff
2. To motivate the faculty for qualification up-gradation
3. To increase number of Memorandums of Understanding (MoU) with industries
4. To increase number of Patents and Journal publications

19. Incubation center:

Department has strong close liaison with leading industries since more than a decade. This liaison is strengthened with the help of Industry-Institute Interaction Cell (I2IC), Incubation Center and Industrial Visits.

Objectives:

- ❖ To get Sponsorship for projects of under graduate & Post graduate students
- ❖ To deliver Guest lecturers in various domain of interest
- ❖ To work as External examiner for U.G. and P.G. Project work
- ❖ To provide Industrial training to faculty
- ❖ To provide Internship to desired students
- ❖ To work as a Technical adviser in students projects
- ❖ To help in Establishment of incubation unit
- ❖ To provide guidance as a Technical adviser in FDP, STTP and conference
- ❖ To work as a Adjunct Faculty

Department has liaison with leading Industries since a long. Incubation center is the outcome of this extended liaison. It is inaugurated by the hands of Mr. Sunil Desai, CEO-Maven Systems. Objectives of the center are Transfer of Technology (ToT), Resource sharing, Knowledge sharing, Projects through association, Corporate training etc.

Our Alumni Incubators

❖ **Pankaj Dudulwar, Director (EMBEL technologies Pvt . Ltd)**

- He is Passed out in 2003
- Start-up to design and develop hardware, software for Embedded System.
- Also Analog Engineer - Intel, Bangalore.

❖ **Rohit Dhange, CEO (Lazzzyme.com)**

- Passed out in 2019
- Start-up provides one-stop solution for all campus student needs such as food subscription, laundries, coaching, rentals etc.

Following activities carried out under Incubation Centre

Mr. Aniruddha Barve and Mrs. Uma Degwekar (Entrepreneur) was invited as a Chief Guest and Mr. Vikram Gholap as Alumina for FE Induction Program 2018.

The alumni guest of honor shared his experiences way back 16 years with SCoE. He assured the students about their excellent career in E&TC at SCoE. Similarly, he highlighted about the inculcation of good habits for better placement.

Mrs. Uma Degwekar Chief guest (Entrepreneur) - stresses on the unavoidable difficulties while start up of new business. She has given the keys to overcome such hurdles. The appeals were made to the students to become entrepreneurs.

Mr. Aniruddha Barve Chief guest – Industries shed his experience of newly placed employees with the students. He appealed students to inculcate good professional habits so as to ensure excellent career in Industries.

20. Industry Funded Laboratories:

Department of E & TC is actively working to create technically equipped next generation students. For this eminent industries extended their support and donated lab equipments and softwares to E & TC Department of Sinhgad C.O. E. These labs provide ample resources from INTEL, TEXAS, XILINXS, ACTEL etc. Now S.C.O. E., E & TC students are working in all such companies and on

leading positions. The sponsored labs builds cutting edge knowledge domain of faculties and students and it immensely help to tune up with upcoming technologies. Department is looking forward for such more collaborations in the near future.

ACTEL:

Objectives:

- To provide hands on and practical exposure of FPGA, CPLD, Libero etc.
- To build cutting edge technologies domain and to make the students to tune up with upcoming technologies.
- To provide the platform to the students for FPGA based interfacing projects.

Introduction : The hardware and software funded by ACTEL is grooming up students to work in semiconductor industries. The hands on and practical exposure of FPGA, CPLD, Libero etc. build students and ready to work in VLSI MNC companies. The fundamentals of digital and VLSI design are governed by ACTEL Hardware and software. Many students used these resources in their UG/ PG Projects.

Amount : 1. 2 Cr.

Activities: Several UG and PG Projects are carried out under Actel funded lab.

- FPGA based physical parameter monitoring system
- GPS based navigation system for railways
- Intelligent Mobile Robot, Configurable efficient ALU etc.

TEXAS :

Objectives:

- To develop students with comprehensive knowledge of DSP Processors and Microcontrollersto solve signal processing algorithms.
- To design a system or algorithm of signal processing to meet desired realistic needs.

Introduction: The MSP430 is a mixed signal microcontroller family from Texas Instruments. Built around a 16 bit CPU, the MSP430 is designed for low cost and, specifically, low power consumption embedded application.

The MSP 430 can also be used for low power embedded devices. The current drawn in idle mode can be less than 1 μ A. The top CPU speed is 25 MHz. It can be throttled back for lower power consumption. The MSP430 also uses six different low-power modes, which can disable unneeded clocks and CPU. Additionally, the MSP430 is capable of wake-up times below 1 microsecond, allowing the microcontroller to stay in sleep mode longer, minimizing its average current consumption. The device comes in a variety of configurations featuring the usual peripherals: Someless usual peripheral options are also added.

Amount : Rs. 40,000/-

1) INTEL FICE Lab

Objectives:

- To develop students with solid foundation in recent microcontroller platforms.
- To nurture students with comprehensive knowledge and skills in Arduino programming.
- To get acquainted with Intel Galileo board as Embedded system platform.
- To expertise in designing real world situations using updated Galileo board platform.

The Inel Intelligent Systems lab is to introduce engineering students to state of art platform of Intel Galileo board to design and develop Embedded systems, to help them carrying out their project/ dissertation work. These boards are based on Intel Quark/ SoC X 1000 Application processor and Inforce SYS 94XX reference platform. Galileo is 32 bit Intel Platinum class system on a chip. It is the first board based on Intel Architecture designed to be compatible with Arduino shield. The objective of this lab is to provide platform to the various researchers from academia, industrial personsand R & D organizations to enhance the research in the area of Embedded System with platform of Galileo board. In the lab, students will understand to build setups based on interactive sensors and output devices. The learners will experiment Wi Fi and bluetooth like wireless communication protocols with Galileo board. Also some vision based projects could also be carried out.

Amount : Rs. 3,11,352/-

Projects carried out in Intel Intelligent Systems Lab:

Automatic Kitchen Safety using wireless sensor. Intelligent medical system

Aid for physically challenged people

Campus location addressing using Intel Galileo

Mobile app interfacing with Intel Galileo

2) ST Microelectronics:

Objectives:

- To provide modern engineering tools for students to design and develop electronics systems for real life problems.
- To enrich student's knowledge in efficient embedded systems design.
- To nurture the students in System on chip design, real time operating system design, Internet of

Things.

Introduction: The liaison has set up between department of E & TC - Sinhgad COE with ARM Ltd. UK enables additional use of ARM Technology. The consignment of high end development boards and state of the Art- Keil Design software completely free of cost and based on knowledge strength for academic holy purpose. The beneficiary of this development are laboratories, UG/ PG student projects, research, Faculty/ Student development. The contents of software tools are 100 licenses for Keil MDK. ARM offers the Keil Microcontroller Development Boards (MDK -ARM) for ARM powered microcontrollers. It features the industry standard compiler from ARM, The Keil Micro Vision IDE and sophisticated debug and data trace capabilities. It offers tailored support for all CortexM processor based devices, and the recommended solutions for students working with standard ARM based MCU devices.

The lab also includes Development boards, 10 ARM Cortex based STM32F4 Discovery Boards from ST Microelectronics. The STM32F4 Discovery helps to discover the STM32F4 high performance features and to develop your applications easily. It includes everything required for beginners and experienced users to get started quickly. Based on STM32F407VG T6, it includes ST-LINK/V2 embedded debug tool, two ST MEMS, digital accelerometer and digital microphone, one audio DAC with integrated class D speaker drive, LED and push buttons and a USB OTG micro AB connector.

Amount :Rs. 9,38,21,708/-

Activities: B. E. Projects are carried out using the Keil software and Kits from ARM STMicroelectronics.

- Rainfall and Landslide detection using WSN
- Automatic Vehicle identification using ARM Processor

3) Xilinx :

Objectives:

- To provide hands on and practical exposure of FPGA, CPLD, Libero etc.
- To build cutting edge technologies domain and to make the students to tune up with upcoming technologies.
- To provide the platform to the students for FPGA based interfacing projects.

Introduction : The ISE 14.7 software (10 License) funded by XILINX is grooming up students to work in semiconductor industries. The hands on and practical exposure of FPGA, CPLD, Libero etc. build students and ready to work in VLSI MNC companies. The fundamentals of digital and VLSI design are governed by Xilinx software. Many students used these resources in their UG/ PG Projects.

Amount :10 Lac.

Activities: Several UG and PG Projects are carried out under Xilinx funded lab.

4) eYantra Lab:

Objectives:

- To provide a platform for students/ trainers to demonstrate their knowledge and programming skills in Embedded Systems and Robotics.
- To learn by doing. It provides an opportunity for students to apply their knowledge to solve real life problems with given hardware.
- To implement better projects with help from eYantra open source community.
- To get better performance at competitions such as the eYantra Robotics Competition (eYRC)

Introduction: e-Yantra is a project by IIT ,Bombay to spread education in Embedded Systems and Robotics. This project has been sponsored by Ministry of Human Resource Development. The eYantra Lab Setup Initiative supports infrastructure at colleges by providing a platform for training teachers and students both in theory and applications in Robotics, in addition to providing guidance in setting up Robotics Lab.

Benefit to the students is that training students through hands on projects is imperative in producing successful innovators and entrepreneurs. eYantra facilitates the infrastructure creation by sharing its experience and expertise.

Amount: Rs.53,997/-

Activities: 20 teams have registered for eYantra Robotics competition (eYRC). Through online exams conducted by IIT , 4 teams were shortlisted. These 4 teams have worked on different tasks and 1 team reached the Quarter final stage by completing 4 different tasks given by IIT Bombay and received certificate. The team worked on Pollinator Bee theme by eYantra. Through this activity, students are encouraged to participate university level Robotic competitions at different colleges. Many teams have won these university level competitions.

5) nVidia Software:

Objectives:

- To Explore the fundamentals of deep learning by training neural networks and using results to improve performance and capabilities.
- To implement common deep learning workflows, such as image classification and object detection
- To Experiment with data, training parameters, network structure, and other strategies to

increase performance and capability.

- To Deploy the neural networks to start solving real-world problems

Introduction: NVIDIA DLI have granted with 200 promo codes for two self-placed online courses and associated electives.

1. Fundamentals of Deep Learning for Computer Vision

Explore the fundamentals of deep learning by training neural networks and using results to improve performance and capabilities.

- Classification, Segmentation And Recognition
- Implement common deep learning workflows, such as image classification and object detection
- Experiment with data, training parameters, network structure, and other strategies to increase performance and capability
- Deploy your neural networks to start solving real-world problems

2. Fundamentals of Accelerated Computing with CUDA C/C++

The CUDA computing platform enables the acceleration of CPU-only applications to run on the world's fastest massively parallel GPUs. Experience C/C++ application acceleration by:

Accelerating CPU-only applications to run their latent parallelism on GPUs

Utilizing essential CUDA memory management techniques to optimize accelerated applications

Exposing accelerated application potential for concurrency and exploiting it with CUDA streams

Leveraging command line and visual profiling to guide and check your work

Upon completion, student will be able to accelerate and optimize existing C/C++ CPU-only applications using the most essential CUDA tools and techniques.

Importance of the courses:

- Concepts could be applied to end-to-end projects.
- Through built-in assessments, students can earn certifications that prove subject matter competency and can be leveraged for professional career growth.

• Each course presents a self-paced learning environment with access to a GPU-accelerated workstation in the cloud. All you need is a web browser and an Internet connection to get started.

Two GPU kits are funded by NVIDIA Singapore Ltd.

Amount: Rs. 13.26 Lac.

21. Departmental Library:

- Department Library Facility is available.
- Books (Hard copy)- No. of Titles= 428.
- Books (Hard copy)- No. of Volumes=465
- No. of Journals subscribed =Nil.
- National Magazines(Hard copy)=02
- National Journals(Hard copy)=06
- International Journals((Hard copy)=01

Information Technology Department
2020-21

STES Sinhgad College of Engineering
Vadgaon (Bk), Pune – 41

Vision

To provide excellent Information Technology education by building storage teaching and research environment.

Mission:

To transform the students into innovative, competent and high quality IT professionals to meet the growing global challenges.

To achieve and impact quality education with an emphasis on practical skills and social relevance.

To endeavor for continuous up gradation of technical expertise of students to cater to the needs of the society.

To achieve an effective interaction with industry and mutual benefits

Quality Policy:

Quality Policy aims to establish centre of excellence for technical education and research in Engineering & Technology by way of;

- Inducting faculty having sound knowledge in the field of Science and Engineering and to make special efforts to retain them.
- Proven good results and admitting quality students.
- Developing human capital by supporting talent, ideas and energies of outstanding individuals.
- Promoting partnerships with the quality institutes like IITs', IISc, etc. , research organizations like ARAI, NCL, C-DAC, etc. & prominent corporate houses.

Developing excellent teaching learning process by establishing cohesive bond between students & faculty and healthy atmosphere with decent discipline.

Goals:

❖ Long Term Goals

1. To establish Research Centre as Centre of Excellence in Engineering Research and Development
2. To seek Academic Autonomy leading to University status
3. To develop an Engineering Knowledge Centre of Society in general
4. To develop the institute in multidisciplinary fields.

❖ Short Term Goals

1. To add new Post Graduate and Ph.D. programs
2. To motivate and depute faculty for Doctoral Programs
3. To improve the interaction with institutes of national and international repute and industries from various fields of engineering

Spoken Tutorial Project at SCOE:

Sinhgad College of Engineering is a focused on the overall growth of students. In the same view, a step was taken in association with IIT, Bombay through the Spoken Tutorial Project.

The Spoken Tutorial Project is about teaching and learning a particular FOSS (Free and Open Source Software) like Linux, Scilab, LaTeX, PHP & MySQL, Java, C/C++, and Library Office etc. via an easy Video tool - Spoken Tutorial. This is an initiative of National Mission on Education through Information and Communication Technology (ICT), launched by the Ministry of Human Resources and Development, Government of India to promote IT literacy through Open Source Software.

1. Mission:

Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbibing an unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity and technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant Society.

2. Quality Policy:

Quality Policy aims to establish centre of excellence for technical education and research in Engineering & Technology by way of;

- Inducting faculty having sound knowledge in the field of Science and Engineering and to make special efforts to retain them.
- Proven good results and admitting quality students.
- Developing human capital by supporting talent, ideas and energies of outstanding individuals.
- Promoting partnerships with the quality institutes like IITs', IISc, etc., research organizations like ARAI, NCL, C-DAC, etc. & prominent corporate houses.

Developing excellent teaching learning process by establishing cohesive bond between students & faculty and healthy atmosphere with decent discipline.

3. Goals:

▪ Long Term Goals

1. To establish Research Centre as Centre of Excellence in Engineering Research and Development
2. To seek Academic Autonomy leading to university status
3. To develop an Engineering Knowledge Centre of Society in general
4. To develop the institute in focused areas like Information Technology, Biotechnology, Energy, Materials etc.

▪ Short Term Goals

1. To add new Post Graduate and Ph.D. programs
2. To motivate and deputefaculty for Doctoral Programs
3. To improve the interaction with institutes of national and international repute and industries from various fields of engineering

4. Students Intake:

4.1 UG Intake:

BE Projects-

Project Group No.	Name of Guide	Title of Project	No. of students
1	Dr. A. B. Kanase Patil	Simulation of small scale solar thermal power plant	4
2	Prof. A. G. Chavan	Design and fabrication of automatic handbrake release system	4
3	Prof. A. R. Tole	Design And Analysis of Two Wheeled Forklift using IOT	4
4	Prof. A. L. Dorwat	Design analysis and manufacturing of organic fertilizer spreading machine	4
5	Prof. S. D. Thakre	Parametric analysis of microchannel heat sink using computational fluid dynamics	4
6	Prof. T. A. Jadhav	Design and development of forward collision warning and prevention system in heavy vehicles	4
7	Prof. S. S. Aithal	Anti con petrol meter	4
8	J.L.minase	Performance analysis of an electric scooter using different parameters	4
9	Prof. A. P. Kaldate	Comparison of power generation capacity from speed breaker using engine mechanism and compressed air method	4
10	Prof.N.K. Guadgaon	Design And Fabrication Of Automated Stair Climber Trolley	4
11	Dr. A. P. Tadamalle	Design and analysis of valves along with study of control system of diesel air screw compressor	4
12	Prof. C. A. Joel	Thermal management of li-ion battery in an electric vehicle by using efficient cooling method	4
13	Prof. A.P. Kaldate	Design and Simulation of Self-Aligning Solar Panel	4
14	Prof. A. P. Biradar	Design and analysis of multipurpose planting machine	4
15	Prof. V. N. Kapatkar	Automation of magnetic particle inspection machine to achieve performance optimization	4
16	A. G. Chavan	Design and fabrication of automated bottle packaging system	4
17	Mrs Joel	Manufacturing of solar tracking system to maximize solar panel output	4
18	DR. A. P. PANDHARE	Tape casting process for fabrication of electrolyte supported solid oxide fuel cell	4
19	Prof.R. R. YADAV	Design and manufacturing of jigs and fixture for pin housing	4

		used in door lock system	
20	Prof. S. M. Sakhare	Design and fabrication of seat belt assisted hand brake lever	4
21	Prof. N. S. Gohel	Cdf analysis and experimentation of solar-based atmospheric water generator using thermoelectric cooling method	4
22	Prof. N.K. Gaudgaon	Dual power generation using solar and wind energy	4
23	Prof. S. A. Phule	Investigation on Flexural Response of Sandwich Composites	4
24	Prof. V. J. Jagtap	Mechanical design, performance analysis and fabrication of anthropomorphic biomechatronic hand for prosthetic	4
25	Prof. M D Patil	Footstep power generator	4
26	Prof.D.M.Gaikwad	Vortex bladeless wind power generation	4
27	Prof. V. J. Jagtap	Design and manufacture of attribute type fixture to check spray angle and number of jets of cup injector using pressurized testing fluid	4
28	Prof. A. P. Tadmalle	Design and analysis of spokes for non-pneumatic tyres	4
29	Prof. J.T.PATEL	Dc fast charger using single stage converter	4
30	Prof. S. R. Kulkarni	Design, analysis and fabrication of thermoelectric refrigeration system for storage of blood bags	4
31	Prof. A. P. Kaldate	Reinforcement of jute fiber in carbon fiber and testing for the application of leaf spring.	4
32	Prof. R.R.Yadav	Design and manufacturing of automatic overhead conveyor gripper system for chemical material process	4
33	Dr. A.B Kanse-Patil sir	Design and analysis of an electric powered gyro-stabilised unicycle	4
34	Prof. D.M.Gaikwad	Design and fabrication of manual multiple sowing machine	4
35	D.M. Potphode	Design and analysis of pneumatic paper cup making machine	4
36	Prof. V.D. Ghogare	Experimental analysis of indirect solar cooker with micro fin heat exchanger for domestic purpose	4
37	Prof. S.M. Sakhare	Design of dish washer machine accepting heat from household gas.	4
38	Dr. A. P. Pandhare	Synthesis and characterization of gd and sr co-doped ceria electrolyte for low temperature sofc application	4
39	Prof. S. D. Thakre	Design and analysis of a fin tube model heat exchanger with punched vortex generators	4
40	Prof.S.H.Deshmukh	Engineering the surfaces for enhancement of service life of mechanical component via surface modification technology	4
41	Dr. A. B. Kanase Patil	Numerical simulations of cross flow heat exchanger with enhanced area	4
42	Prof. R. R. Deshmukh	Design and fabrication of multi way hacksaw machine	4
43	Prof.P.H.Lokhande	Fabrication and characterisation of epoxy composite filled with wollastonite.	4
44	Prof. S. Subramanya	Broder surveillance vehicle	4
45	Prof. J. T. Patel	Vehicle health monitoring system with respect to engine oil parameter	4
46	Prof. T. A. Jadhav	Development and analysis of floating sheets in farm pond	4
47	Prof. R. R. Deshmukh	Numerical and experimental study of metal foam heat sink.	4
48	Prof. P. B. Biradar	Design and development of biomimetic robotic fish	4
49	Prof. P. H. Lokhande	Design and Fabrication of Electromagnetic Braking System	4
50	Dr. J. L. Minase	Design of bed and low pressure mattress for minimization of pressure ulcers(bedsore)	4
51	Prof. Varsha D. Ghogare	Modification and analysis of fins and heat pipe for heat dissipation from automotive LED headlight	4
52	Prof. P.B.Biradar	Performance Improvement of Photovoltaic Thermal Collector	4

		Using PCM	
53	Prof. Dr. A. B. Kanase - Patil	Micrositing of wind farm incorporating technical and economic aspects	4
54	Prof. (Mrs.) S. A. Phule	Design fabrication and testing of motorized vehicle door opening/closing system	4
55	Prof. P. R. Biradar	Fuel management system	4
56	Prof. N. S. Gohel	Study Of Hydrodynamic Cavitation Using Orifice Plate	4
57	Prof. Dr. A. P. Pandhare	Automation in inventory management in MSME (micro, small, medium enterprises) warehouse by use of robot.	4
58	A.R TOLE	Fabrication and manufacturing of brass anchor slot machine	4
59	P.R.BIRADAR	Study of heat transfer of php using nano-fluids	4
60	Prof. A.L Dorwat	To evaluate performance of cooling tower using different filters	4
61	Prof. M. D. Patil	Design of portable electric drive for bicycle	4
62	Prof. S. R. Kulkarni	Thermo -electric power generator from waste heat of two-wheelers	4
63	Prof. M. D. Mange	Study of installation and commissioning of irrigation automation system on field.	4
64	Prof. S. R. Sonawane	Design Modification And Analysis of Pneumatic Systems to Overcome Air Leakages	4
65	Prof. S. R. Birajdar	Design and Fabrication of Three Axis Hydraulic Modern Trailer	4
66	Prof. M. D. Mange	Design and fabrication of magnetic suspension system	4
67	Ashish Biradar Sir	Design and modification of cam operated spring-less valve system	4
68	S.R.Sonwane	Shoch absorbing back-packs	4
69	Prof. G.E. Patil	Design of filament winding machine	4
70	Prof. M. M. Deshmukh	Analysis of dispersed phase fluid flow in a continuous phase fluid flow using cfd.	4
71	Dr. J.L.Minase	Design and Fabrication of Welding Seam Tracker	4
72	PROF.E.K.RATHO D	Automatic ingot feeder in foundary	4
73	Prof. V.N.Kapatkar	Design of compressed air test bed for energy monitoring in industrial automation using plc	4
74	Prof Pandhare A P	Synthesis and characterization of Sm and Nd codoped ceria electrolyte for low temperature SOFC Application	4
75	G.E.PATIL	Design and fabrication os skyhawk	4
76	Prof. MITESH M. DESHMUKH	Design of air tool for wheel bolting in vehicles	4
77	D M POTPHODE	Design & analysis of multipurpose agricultural equipment	4
78	Prof. P. H. Lokhande	Design, analysis and simulation of propeller shaft	4
79	S.H.Deshmukh	Stastical analysis for process parameters to study the effects of micro texuring on machine performance for cutting d2 steel.	4
80	Prof.S.H. Deshmukh	Simulation and testing of Bionic Blade for Paddy Field Impeller	4
81	Prof. E.K Rathod	Contactless energy generation system with flywheel	4
82	Prof. S. R. Birajdar	Fea and optimization of automotive wheel hub	4
83	Dr. A.P.Tadamalle	Design and manufacturing adaptive headlight	4
85	Prof. A. B. Joshi	Design and analysis of paper bag manufacturing machine	4

Developing excellent teaching learning process by establishing cohesive bond between students & faculty and healthy atmosphere with decent discipline.

3. Goals:

● Long Term Goals

1. To establish Research Centre as Centre of Excellence in Engineering Research and Development
2. To seek Academic Autonomy leading to University status
3. To develop an Engineering Knowledge Centre of Society in general
4. To develop the institute in focused areas like Information Technology, Biotechnology, Energy, Materials etc.

● Short Term Goals

1. To add new Post Graduate and Ph.D. programs
2. To motivate and depute faculty for Doctoral Programs
3. To improve the interaction with institutes of national and international repute and industries from various fields of engineering

Sinhgad College of Engineering is a focused on the overall growth of students. In the same view, a step was taken in association with IIT, Bombay through the Spoken Tutorial Project. The Spoken Tutorial Project is about teaching and learning a particular FOSS (Free and Open Source Software) like Linux, Scilab, LaTeX, PHP & MySQL, Java, C/C++, and Library Office etc. via an easy Video tool - Spoken Tutorial. This is an initiative of National Mission on Education through Information and Communication Technology (ICT), launched by the Ministry of Human Resources and Development, Government of India to promote IT literacy through Open Source Software.

15. Student training program (STP) Program

Highlights:

As thousands of MBA graduate each year competition gets tougher and it is clearly not only “survival of the fittest ” but “employ the best “. Keeping this in mind Sinhgad College of Engineering, Department of management studies conducts a training program which aims to improve the “employability” of students and in the development of following parameters.

- To improve Communication Skills
- To develop a fulgurous personality
- Instill a sense of discipline

- To create an exposure to the realities in the corporate world
- To improve analytical skills

The program is divided into three semesters, the first semester comprises 32 hours where the students are exposed to reading skills, writing skills, general knowledge and aptitude, along with introduction to case studies. The second semester comprises 29 hours where the focus is on simulation exercises, developing analytical skills, problem solving skills, self-analysis etc. The third semester comprises advanced reading and writing skills along with interview preparation. Thus the STP program conducted under the guidance of experienced faculty members aims for better employability. In SCOE MBA department the STP activities are aligned with various academic activities hence total participation of students is received.

Annual Academic Audit Report 2020-21

**Department of Engineering Sciences
(First Year Engineering)**

VISION

To support the core engineering departments and produce graduates with fundamental knowledge and skills in Mathematics and Basic Sciences with acumen to be leaders amongst the generation of engineers.

MISSION

To incorporate the best pedagogical methods to deliver basic sciences to engineering students and to guide them in their extracurricular pursuits, challenge them to be proactive learners, deep thinkers and responsible citizens in early stages of their engineering education.

QUALITY POLICY

We the faculty, staff and students are dedicated to implement best practices in engineering education, and develop transparent procedures for the benefit of all stakeholders.

GOALS

▪ Long Term Goals

- To acquire research based learning skills by faculty
- To bridge the gap between Fundamental Sciences and Engineering
- To prepare the students of first year engineering for comfortable transition to respective program of engineering through expert lectures and seminars

▪ Short Term Goals

- More involvement of faculty in curriculum development of affiliated university
- Support to core departments for guiding projects of students
- To motivate the faculty for qualification up-gradation
- To increase number of Journal publications
-

Regular Phase: Day 3 to Day 7

Day 3: Common Induction Program

Common Induction Program generally includes following modules and activities:

1. Physical Activities (Yoga & Indoor Sports)
2. Mentoring & UHV (Universal Human Values) Sessions
3. Creative Arts and Culture
4. Proficiency module
5. Professional Training
6. Social Awareness
7. Introduction to First Year Subjects
8. Academic & Administrative Processes

Day 3: Session-I: Principal's Address

The First Year Engineering Online Induction Program (e-SIP)- regular phase started from 1st February 2021 in online mode through Zoom Online Meeting Platform. The schedule of the program was made available on online notice board through the link: bit.do/fe_scoe_noticeboard

The daily communication about sessions was also made available through dedicated Telegram Channel. Initially **Prof. A. R. Dhamne, e-SIP Coordinator** briefed about the objectives of the Students Induction Program to the students.

Prof. V.K. Chaudhari, HoD FE greeted all the students and welcomed the dignitaries of this event Dr. S. D. Lokhande and Dr. Y. P. Reddy.

Dr. Y. P. Reddy, Vice Principal SCOE addressing the students and parents

Dr. Y. P. Reddy, Vice Principal SCOE stressed on the facets of various branches of engineering in his address and advised the students to remain focused on their chosen path of career.

Dr. S. D. Lokhande, Principal SCOE elaborated the reach of Sinhgad College of Engineering in the technical education in last 25 years. He stated that the accolades of the institution in the form of NAAC A-Grade and accreditation of academic programmes by NBA in the past were the noteworthy achievements of the institution. The institution has good reputation among industries that visit the campus every year for placements. He appealed the students for taking all possible efforts for developing themselves as better professionals.

Dr. S. D. Lokhande, Principal SCOE addressing the students and parents

Sir provided the information about the “Student Training Program (STP)”, a unique program run by SCOE for making the students ready for placement spread over 5 semesters from SETo BE. Regular participation of SCOE teams in technical competitions like SAE BAJA, Rocketry, Solar Vehicle, Cultural competitions like Firodiya, Purushottam, Suman, our own Sinhgad Karandak, Sports Competitions at District, State and University level and achievements in these competitions. Finally he concluded with assurance to all parents about comfortable environment for their ward from academic and social point of view.

Day 3: Session-II: HoD’s Overview

Prof. V. K. Chaudhari, HoD FE conducted this session with the objective of making students and parents familiar with the institution’s academic and administrative processes.

The presentation included glimpse of STES campus, detailed information about Sinhgad College of Engineering (SCOE) followed by complete information of First Year (FE) working. The FE information included course structure, university examination pattern, internal mock examination portal, continuous assessment, and Student Training Program (STP) and Sinhgad Student Council (SSC) activities.

FE Academic Monitoring Team

The students were briefed about FE Academic Monitoring Team involving HoD FE along with Coordinators for group of divisions.

The screenshot shows a video player with a slide titled "Roll Number, Division, Batches, Gr". It includes a diagram for the roll number 103024, where '10' is the First Year, '3' is the Number, and '024' is the Division. Below this is a table of subjects for Semesters I and II across Groups I and II.

Semester	Group	Common Subjects	Other than Common
I	I	Engineering Mathematics - I Systems in Mechanical Engg. Workshop (Practical)	Engineering Physics Basic Electrical Engineering Programming and Problem
	II	Environmental Studies - I (Audit)	Engineering Chemistry Basic Electronics Engineering Engineering Mechanics
II	I	Engineering Mathematics - II Project Based Learning	Engineering Chemistry Basic Electronics Engineering Engineering Mechanics
	II	Environmental Studies - II (Audit) Physical Education (Audit)	Engineering Physics Basic Electrical Engineering Programming and Problem Solving

The Roll Number, Divisions and Batches for Students

The students were primarily explained about the importance of attending lectures and laboratory sessions throughout the year. They were introduced to the Mentor (Guardian Teacher) Scheme implemented in college for overall monitoring of students' progress. The parents were advised to keep in touch with mentors whenever necessary.

Students were made familiar with various activities under Sinhgad Students Council (SSC) and Sinhgad Overseas Cell (SOC).

The screenshot shows a video player with a slide titled "Mentor (Guardian Teacher) Scheme". It lists several responsibilities of a guardian teacher, including maintaining academic records, monitoring attendance and performance, and recommending students for term grants.

- ✓ Guardian teacher maintains whole academic record of students.
- ✓ Guardian teacher takes the follow up regarding attendance of students.
- ✓ Guardian teacher monitors academic performance of students.
- ✓ If a student remains absent for continuous three lectures, guardian teacher sends note to all concerned teachers to stop conducting the Laboratory Work of that student.
- ✓ If required, guardian teacher calls the parents on phone on the basis of weekly attendance monitoring.
- ✓ Guardian teacher recommends about granting the term of student under his/her supervision at the end of semester.

List of Mentors/Guardian Teachers for respective Divisions will be made available on F.E. Notice Board

The importance of library facilities in any education system can not be overlooked. SCOE provides 24 X7 library facilities for students with rich stacks of books made available to students. The library consists of large capacity reading hall and the processes for any kind of access are student friendly. Prof. Chaudhari urged students to seek benefit of all these facilities made available to them. He also overviewed about other facilities available in campus such as banking, post office, dispensary, hospital, play ground and shopping apart from academic requirements.

Day 4: Session-II: Universal Human Values

(Activity Coordinator: Dr. Mrs. A. K. Diwan)

Mentoring takes place in the context and setting of Universal Human Values. It gets the student to explore oneself and experience the joy of learning, prepares one to stand up to peer pressure and take decisions with courage, be aware of relationships and be sensitive to others, understand the role of money in life and experience the feeling of prosperity. Need for character building has been underlined by many thinkers where universal human values provide the base.

Methodology of teaching this content is extremely important. It must not be through do's and don'ts, but by getting the students to explore and think by engaging them in a dialogue. It is best taught through group discussions, however with clarity of thought of the teachers cannot be overemphasized. It is essential for giving exposure, guiding thoughts and realizing values.

Day 4: Session-III: Art Circle

(Activity Coordinator: Prof. P. R. Lokhande)

SCOE Art Circle with an objective to make newly admitted FE 2020 students familiar about SCOE art circle and all events under its umbrella steered presentation of all events carried out under SCOE art circle. This included a video show on *Sinhgad Karandak*. The students were overwhelmed by watching activities like singing, music, script reading, and dance events by the senior students of the art circle. Further, few videos of pass out students who are working in the art field, movies, and theatres were shown.

Physical facilities for Cultural Activities at SCOE

Students got acquainted with SCOE art circle and events happening under it. They got the exposure of art and cultural as an extra-curricular activity for confidence build-up and motivation. Students were happy to know about many accolades received by SCOE in cultural events over the years.

Prof. M. D. Patil delivering his session on Meditation

Prof. M. D. Patil conducted a session on Meditation. He elaborated students about the power of meditating and helped them understand controlling their thoughts. Students were zealous about knowing these ancient techniques for concentrating in order to accomplish success.

Day 5: Session-I: Sports

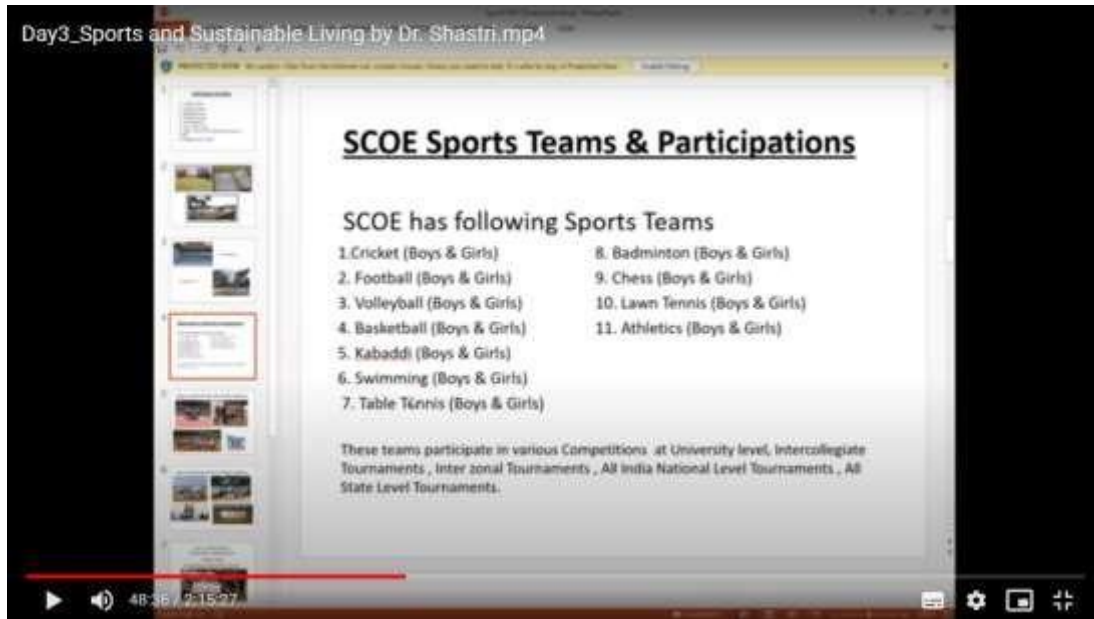

(Activity Coordinator: Prof. V. R. Honmane)

Student representatives Ms. Saniya Deshpande and Ms. Sanskruti Ghadi Patil conducted a session on Sports Activities in SCOE. They elaborated about the sports facilities available in the institute in the form of large playground and various sport equipments. They also shared their experiences of participation and winning of trophies for the college. A good number of students asked queries on participation and tournaments taking place throughout the year. Students were enthused to know about Sinhgad Sports Karandak and SCOE winning this trophy a number of times.

Ms. Saniya Deshpande, Student Volunteer motivating students for participation in various sports

The main objective of this session was to give the students who are joining the college a bird's eye view about various dimensions of sports activities and facilities with opportunities for the students and to acquaint them with the systems and procedures of the college.

Day 5: Session-II: Inspirational Talk

(Activity Coordinator: Prof. A. M. Holi)

Dr. Sameer Shastri, Head, Civil Engineering Department, SCOE delivered a talk on “Sustainable Living” for newly admitted students during e-SIP. He emphasized students on exploring sustainable solutions for engineering problems in today’s age. Dr. Shastri pointed out towards adopting right techniques even while creating modern day infrastructure in our day today life. His delivery of contents on sustainable living certainly motivated students to lead a happy and peaceful life in the harmony of nature.

Day 5: Session-III: NSS Activities

(Activity Coordinator: Prof. P. M. Biradar)

Social Awareness is the ability to empathize with others from diverse backgrounds and cultures, to understand social and ethical norms for behavior, and to recognize family, school, and community resources and supports. Social awareness is a crucial component of appropriate classroom behavior, which contributes to an environment conducive to learning.

On the basis of the above ideologies social awareness sessions were conducted by various socially active groups in the college i.e., National Service Scheme (NSS), PRAYAS and Sinhgad Student Council (SSC). The NSS volunteers briefed new students about objectives of NSS, and the kind of social activities currently conducted by NSS. Volunteers explained the working of

Hydrometer for Continuous Contour Trenches. Videos of Special winter camp and Continuous Contour Trenches were shown to the First year students.

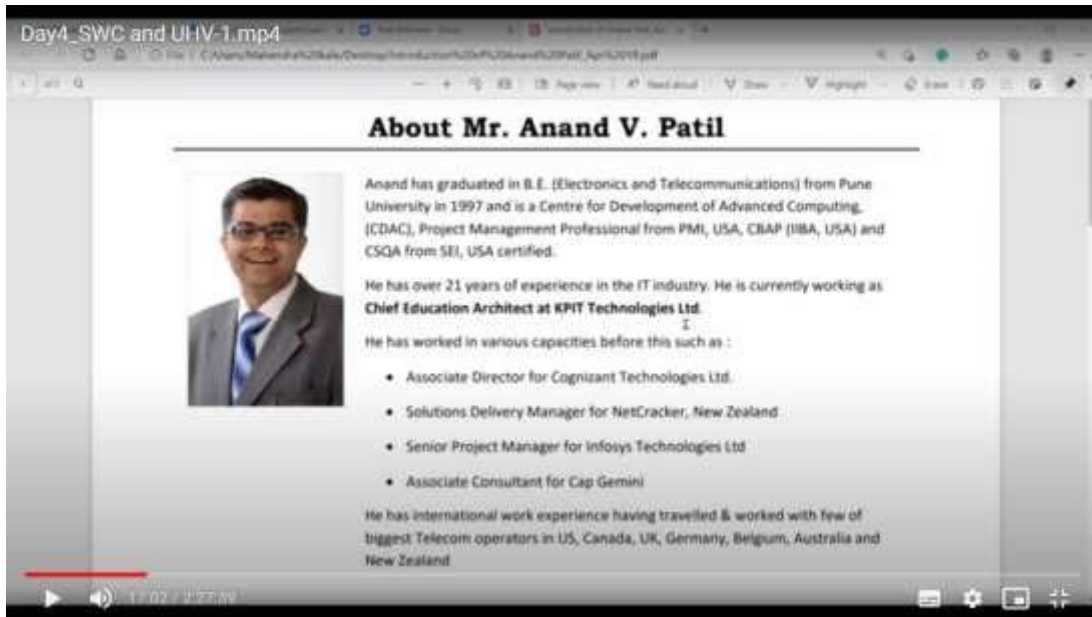

Day 6: Session-I: Motivational Talk

(Activity Coordinator: Prof. A. R. Dhamne)

Student Welfare Club under Sinhgad Student Council (SSC) is very active in arranging various student centric activities such as inspirational talks, softs skills improvement sessions, awareness on nutrition and all such activities keeping students' view point. The volunteers arranged an engaging session during this year's e-SIP.

Mr. Anand Patil from KPIT Technologies Ltd. delivered a motivational talk titled "Small Things Big Difference". He elaborated students about the beauty of even smaller contributions in shaping one's life or achieving any milestone in their career with the help of wonderful illustrations. He inspired students for meditating at times and achieving smaller goals in their career.

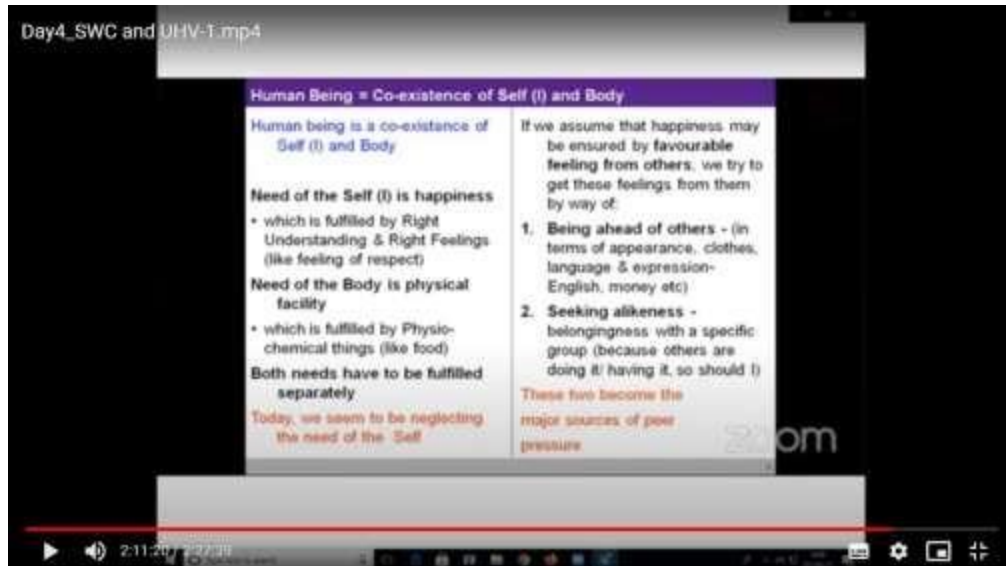

Day 6: Session-II: Universal Human Values

(Activity Coordinator: Dr. Mrs. A. K. Diwan)

This session on Universal Human Values focused on ‘Peer Pressure’ overcoming which is a key to success for every professional. It was a prerecorded session referred from AICTE’s UHV-I FDP conducted earlier.

The session presenter emphasized upon every human being to be a co-existence of one's self and body. The necessity of satisfying one's self is primarily important is the major takeaway from this session.

Day 6: Session-III: Training and Placements

(Activity Coordinator: Prof. P. M. Dahale)

The focus of the event was to give awareness about Training & Placement, Higher Education & Entrepreneurship. The speaker, Mrs. Savita Sharma, Training & Placement Officer, SCOE addressed the First year students from all branches. The event started with brief introduction to operation structure of placement cell. The objectives of the cell were briefly mentioned which includes campus recruitment drives, preparing the students to face campus interviews, career counseling and to develop spirit of entrepreneurship. Then idea about philosophy of industry-institute cell was given. Awareness about T&P cell and need of industry was elaborated.

Mrs. Savita Sharma, Training and Placement Officer presenting her views

The process of campus drives was well understood by students. The speaker also pin pointed the expectations of the recruiter and eligibility criteria for placements.

Training activities are organized throughout the year in an effort towards preparing the prospective students for the campus selection programs. Overview regarding Student Training Program (STP), Sinhgad Oversea Cell, C2C (College to Corporate) Programs, Prominent Achievements of last three academic years was mentioned by Mrs. Savita Sharma. The students were also made aware about the packages of top IT, core, and other companies in campus drives.

Day 7: Session-III: Lecture by Eminent Person

(Activity Coordinator: Prof. G. V. Madhikar)

Another Inspiration lecture on *“Engineering is Awesome”* was conducted by Mr. Raghavn Koli, Author & Motivational Speaker.

He emphasized that many students are really afraid of engineering at the beginning but the journey is really enjoyable. He gave examples of different people who have succeeded in life failing miserably in their initial period.

He said that by creative thinking and engineering skills, working in a team and extensive travel can make a huge difference in Engineering's career. He also stressed that there is a belief that failure is somehow good – somehow beneficial also. However one must be eager to get the reason of his failure, ultimately leading him to success.

The lecture motivated the students to build up their confidence which is key to become successful in life. He expressed confidence that students will certainly come out with ways to handle tough time in their journey. The session also included short videos and puzzles which boosted up the students. The lecture was well received by the students.

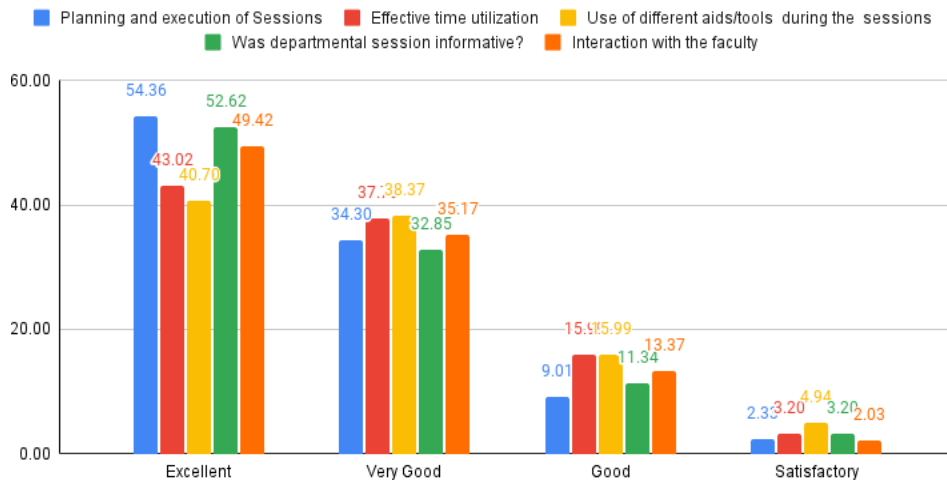

Closing Phase: Day 8
